GAUCHE ET DROIT

La référence aux côtés gauche et droit dans ce catalogue est identifiée par l'opérateur debout à l'arrière de l'unité de base (sans outil arrière), regardant vers l'avant de la machine (en marche avant normale).

Pour les pages concernant les outils de la machine, les côtés droit et gauche sont définis par l'opérateur assis en position correcte de commande de l'outil.

DIMENSIONS

Les dimensions impériales et métriques ne montrent pas les désignations numériques du filetage standard. Un chiffre suivant un point virgule (;) est la classe ou le grade de la visserie. Une virgule (,) représente le point séparateur décimal (.) du système impérial.
